

1. Download and install “Hex Workshop” - [hw_v680.exe](#)

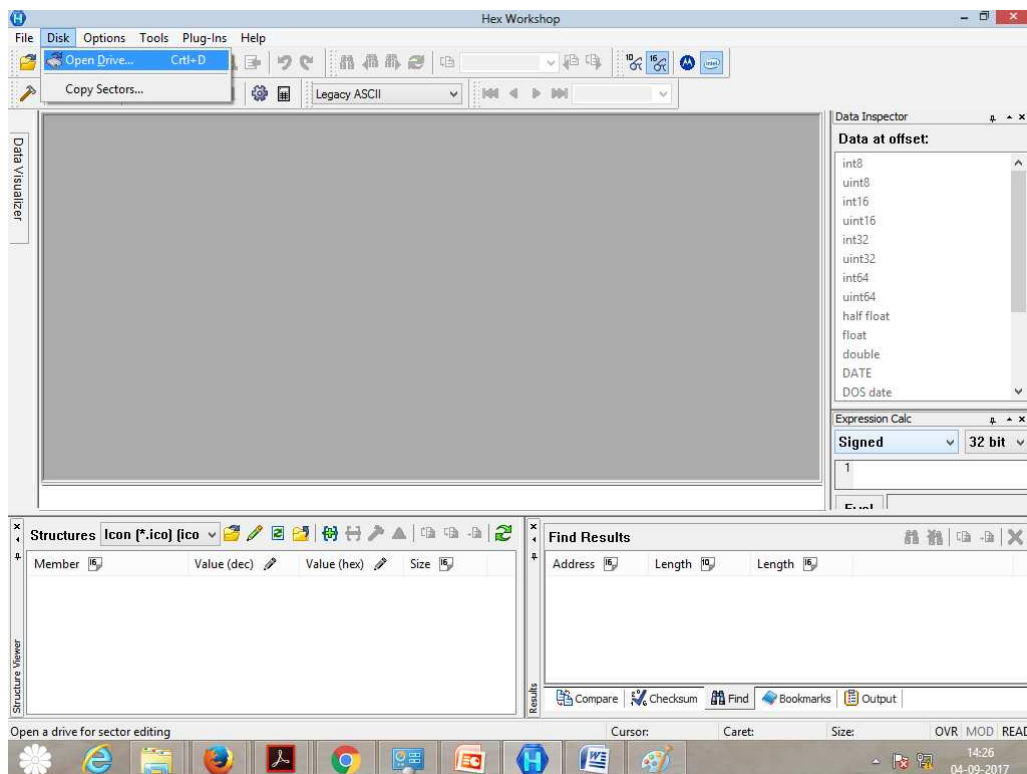

Icon appear in desktop

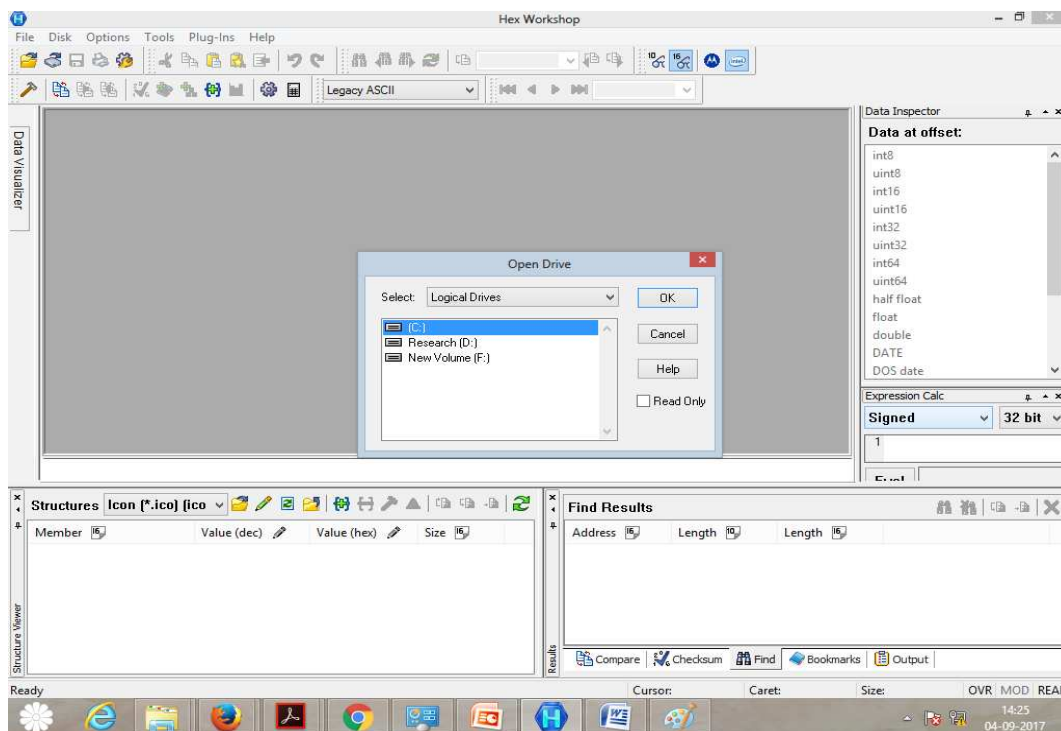

Click **Hex Workshop** Icon

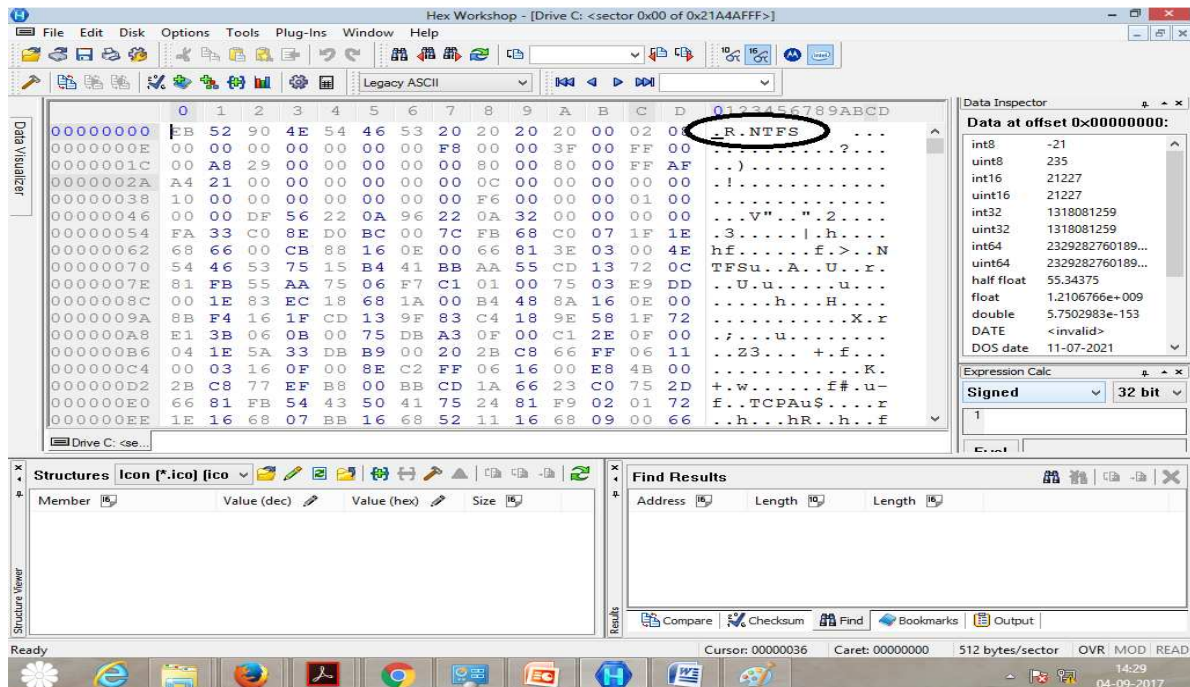

Click **Disk -> Open Drive**

Select **C:**

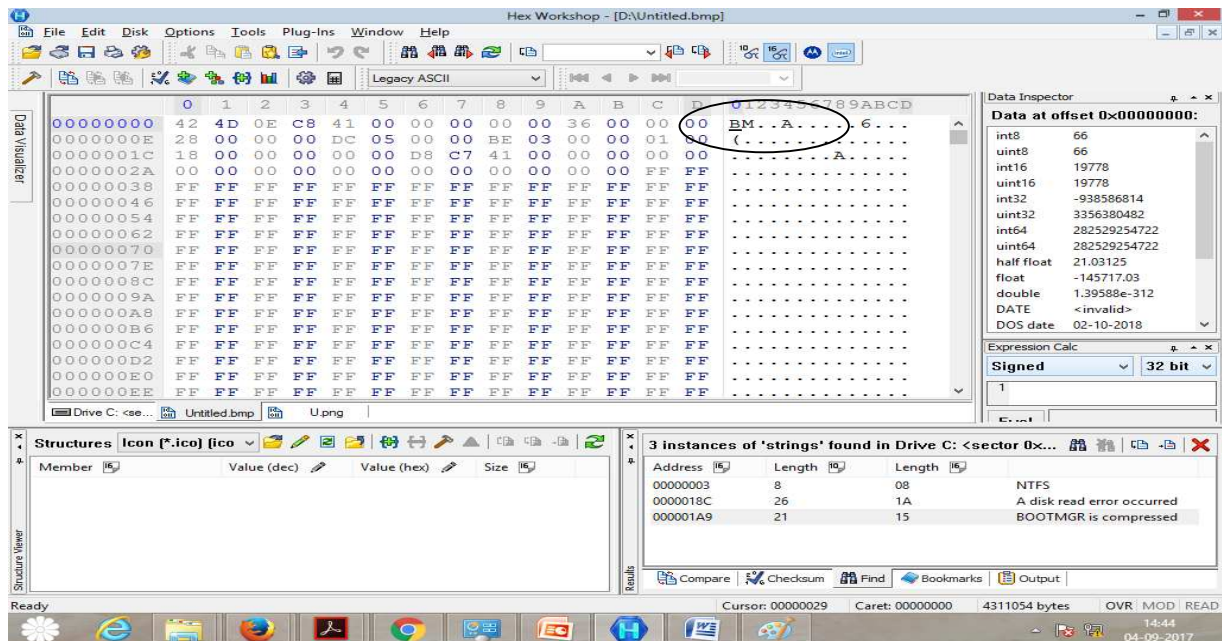

See the file system of C:

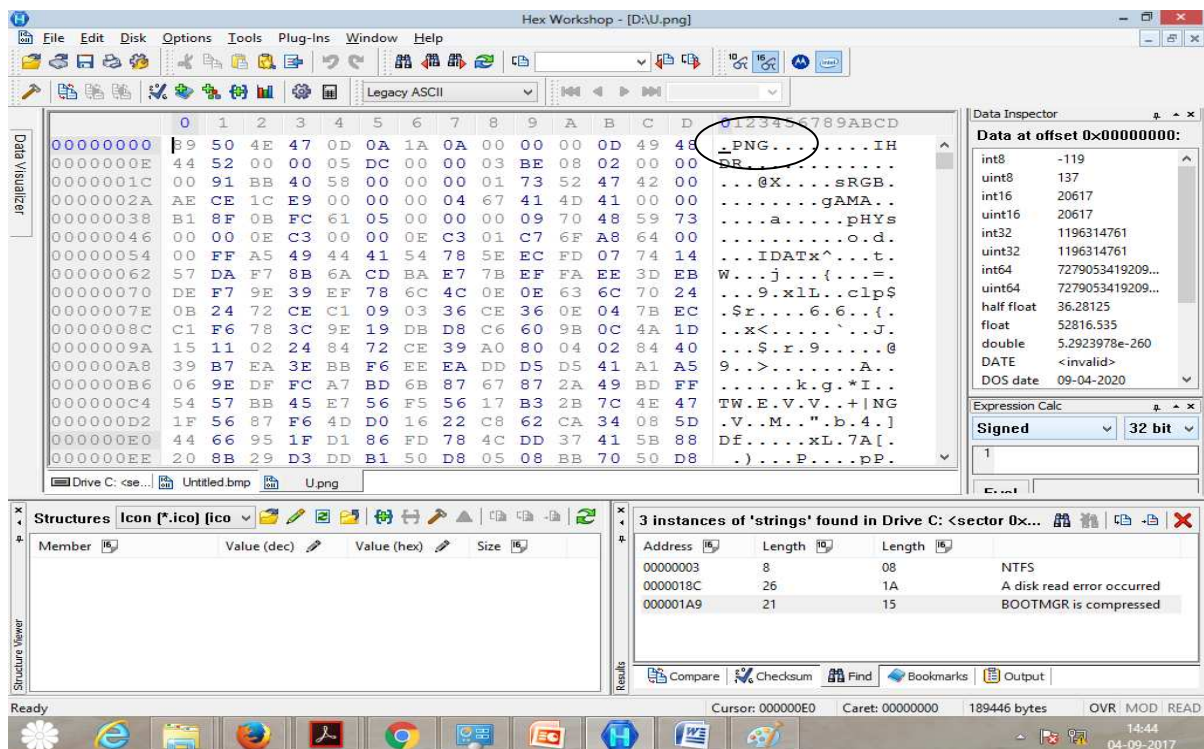

Try this for other disc partitions and USB

2. Click File->Open->file.bmp

Click File->Open->file.png

Click **File->Open->file.doc**

The first line contains a row of 0s followed by "D0 CF 11 E0 A1 B1 1A E1," which identifies the file as a Microsoft Office document
